# HIGH SOLIDS FLOOR MAINTAINER

Floor Maintainer

# FEATURES & APPLICATIONS

**High Solids Floor Maintainer** can be used in a wide range of institutional and commercial premises. It will maintain thermoplastic, linoleum, tiles, sealed wood, terrazzo and similar floors. Not only does it clean the dirtiest floors, its blend of waxes protects floors and buffs to a beautiful shine. It can be used as a complete floor treatment or can be used to 'top up' areas of heavy traffic leaving a fresh citrus fragrance.

Caution: Avoid wetting floors after treatment. Do not use on unsealed wood.

# **APPLICATION DETAILS**

Task Maintaining thermoplastic, linoleum, tiles, sealed wood, terrazzo etc.

Light duty cleaning and topping up finish on linoleum, tiles, sealed wood, terrazzo, etc. Maximum Dilution 1 in 30 with water (170ml per 5 Litres)

1 in 80 with water (60ml per 5 Litres) How To Use Damp mop floor then, when dry, buff to a shine with a hi- speed machine.

Spray floor with solution, simultaneously buffing to a shine with a hi-speed machine.

Note: If using an ounce-a-matic dispenser, one measure = 30ml

# PRODUCT AND PACKAGING INFORMATION

Appearance & Odour:Opaque, blue liquid with citrus fragrance.Chemical Description:An aqueous solution of surfactants, waxes sequestering agents, perfume,<br/>preservative and dye.Packaging:2 x 5 litresShelf Life:2 Years

# **ENVIRONMENTAL INFORMATION**

General Information: This product is expected to have very little ecological impact.

# **Environmental Checklist:**

Biodegradable detergents	Yes	CFC free	Yes	Solvent free	Yes	
Phosphate free	Yes	Acid/alkali free	No	Free of dyes/perfumes	No	
Recyclable packaging	Yes	Biodegradable container	No	Biodegradable outer box	Yes

# **4. FIRST AID MEASURES**

# 4.1 Description of first aid measures

Ingestion	Drink a glass of water to dilute product. Do not induce vomiting. Act immediately to prevent further irritation of mouth, throat and stomach mucosa.
Inhalation	No ill effects expected at concentrations used. If irritation is experienced go in open air and ventilate area. Mouth and throat may be rinsed with water.
Eye Contact	Check for and remove contact lenses. Rinse thoroughly with plenty of water for several minutes.
Skin Contact	Rinse affected area with water as instructed, if needed apply a cold compress to relieve irritation.

# 4.2 Most Important symptoms and effects, both acute & chronic

Where irritation of tissue occurs, stinging and redden accompanied by some discomfort for a short period after exposure no further exposure until condition improves. No Chronic effects known at the concentrations used in the mixture

#### 4.3 Indication of any immediate medical attention and special treatment needed

If irritation to the mouth, throat, stomach, skin, eyes or respiratory system occurs and doesn't subside within a few minutes after the first aid measures have been carried out, seek immediate medical advice and have this SDS or the product label to hand.

A cold compress can be used to alleviate skin irritation.

5. FIRE FIGHTING MEASURES	
5.1 Suitable extinguishing media	This product is not flammable. Use fire extinguishing media appropriate for surrounding area.
Unsuitable extinguishing media	Not applicable.
5.2 Special hazards arising from the substance or mixture	Fumes may contain poisonous oxides of carbon and nitrogen (COx & NOx) if affected by fire.
5.3 Advice for firefighters	Use appropriate extinguishing media for fires in the area. Firefighters should wear self-contained breathing apparatus if heat generated breakdown products are likely to be present
6. ACCIDENTAL RELEASE MEASURES	

### 6.1 Personal precautions, protective equipment and emergency procedures

Wear protective clothing and eyeshields.

#### **6.2 Environmental Precautions**

Avoid spillage into surface water drains, soil / subsoil or vegetation.

#### 6.3 Methods and material for containment and cleaning up

Hose away with plenty of water, diluting well, unless this would contaminate a water source or vegetation. In which case either collect, dilute as earlier and pour down waste drain (foul sewer) or absorb onto dry sand or similar material and dispose of safely as commercial waste.

# **7.HANDLING AND STORAGE**

7.1 Handling	Take care when dispensing product from container. Avoid contact with skin and eyes. Do not mix with any other chemicals.
7.2 Storage	Store upright in original containers in a cool dry area out of the reach of children.
7.3 Specific end use(s)	Use only as directed by the front page of this document and the product label

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### 8.1 Control Parameters

Note: No substances above 1% in the product with a listed exposure limit in EH40

8.2 Exposure Control Respiratory Protection	Personal protection is not normally required unless a risk assessment indicates the need for it .In which case wear a
	facemask with a suitable particulate filter.
Skin Protection	Personal protection is not normally required unless a risk assessment indicates the need for it .In which case wear protective overalls and safety shoes/boots.
Eye Protection	Personal protection is not normally required unless a risk assessment indicates the need for it .In which case ear eyeshields.
Hand Protection	For prolonged contact or sensitive skin the use of rubber gloves is recommended.

# PRODUCT SAFETY DATA SHEET

# 9. PHYSICAL AND CHEMICAL PROPERTIES

# 9.1 Information on basic physical and chemical properties

Appearance Odour pH Yellow Liquid Surfactant 12.5 typically Flash Point (ACC) Viscosity (20C) Water Solubility Above 60°C 20op approximately Soluble

9.2 Other Information None

# **10. STABILITY AND REACTIVITY**

10.1 Reactivity

- 10.2 Chemical Stability
- **10.3 Hazardous Reactions**

**10.4 Conditions to Avoid** 

- **10.5 Incompatible Materials**
- 10.6 Hazardous decomposition products

Not known to react with other chemicals No stability concerns None known Extreme heat or cold None known. None when handled and stored correctly.

# **11. TOXICOLOGICAL INFORMATION**

# 11.1 Information on toxicological effects

We have not carried out any animal testing for this product. Any ATE figures quoted below are from Toxicity Classifications that have been carried out using ATE (Acute Toxicity Estimate) Calculation Method using LD50 or ATE figures provided by the Raw Material Manufacturer.

Consideration is only given to components with greater than 1% based on the product formulation and those with a listed exposure limit in Section 8.

#### Acute Toxicity - Irritant to tissue and eyes.

Component	LD-50, Oral, mg/kg	LD-50, Skin mg/kg	LC-50 (Inhalation)	Chronic Consideration
Alcohol Ethoxylate	1000-2000 (rat)	1000-2000 (rabbit)	-	None known

#### **Chronic Toxicity**

Carcinogenicity	One of the low concentrations elements (Trisodium NTA) has a CARC 2 classification in its concentrated form
Sensitization	No information available.
Mutagenic Effects	No information available
Reproductive Effects	No information available.
Developmental Effects	No information available.
Target Organs	No information available
Endocrine Disruptor Info.	No information available.
-	
Other Adverse Effects	The toxicological properties have not been fully investigated. See actual entry in RTECS for complete

# 12. ECOLOGICAL INFORMATION

information

# 12.1 Toxicity

Ecotoxicity effects

Component	Toxicity to Fish LC-50, mg/l	Exposure Time, Hrs	Comments
Alcohol Ethoxylate	8.5	96	
	(Pimephales promelas)		

#### **12.3 Bioaccumulation Potential**

With the current information available, when used for its intended purpose this product will not cause adverse effects in the environment.

12.4 Mobility in soil No information available

**<u>12.5 Aquatic Toxicity</u>** With the current information available, this is judged to be low at the dilutions that exist.

# 12.6 Other adverse effects No information available

# **13. DISPOSAL CONSIDERATIONS**

# 13.1. Waste treatment methods

Discharge used working solutions to drain is acceptable in small amounts due to the dilution of running water. Small amounts (less than 1 Litre)

# PRODUCT SAFETY DATA SHEET

of unwanted concentrated product may be flushed with water to sewer with at least 15 minutes of running water.

Larger volumes of the concentrated product must be sent for disposal using a licensed waste disposal contractor.

Rinse out empty container with water and consign to normal waste.

# 14. TRANSPORT

Not regulated for Transport with current knowledge

# **15. REGULATORY INFORMATION**

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### **EU** legislation

Safety Data Sheet prepared in accordance with REACH Commission Regulation (EU) No 453/2010 (which amends Regulation (EC) No 1907/2006). The product is as classified under GHS/CLP- Regulation (EC) No 1272/2008 classification, labelling & packaging of substances & mixtures. Ingredients are listed with classification GHS/CLP- Regulation (EC) No 1272/2008 classification, labelling & packaging of substances & mixtures.

#### Guidance

Workplace Exposure Limits EH40.

The National Institute for Occupational Safety and Health (NIOSH) register of Immediately Dangerous to Life or Health Concentrations (IDLH)

# **16. OTHER INFORMATION**

This product does not require any special training before use. Usage and handling instructions are mentioned on packaging and on the first page of this Safety Data Sheet .This health and safety information refers to the concentrated product and has been prepared assuming the intended described use is adhered to. Any unusual or novel use of this product is done without being assessed for the impact nor is it part of the considerations in this document.

Diluted solutions can be considered to be significantly less hazardous although they should always be handled with care.

#### Key literature references and sources for data

Safety Data Sheet, Misc. manufacturers.

CLP Classification - Table 3.1 List of harmonised classification and labelling of hazardous substances. CHIP Classification - Table 3.2 The list of harmonised classification and labelling of hazardous substances from Annex I to Directive 67/548/EEC.

ECHA - C&L Inventory database.

#### **Revision comments**

This product is now using classification from GHS/CLP - Regulation (EC) No 1272/2008 classification, labelling & packaging of substances & mixtures.

Revision date 01/05/2017

The Hazard Statements listed below in this Section No 16 relate to the Raw Materials (Ingredients) in the Product (as listed in Section 3) and NOT the product itself. For the Risk Phrases / Hazard Statements relating to this Product see Section 2.

#### Hazard statements in full

H302 Harmful if swallowed H312 Harmful in contact with skin H315 Causes skin irritation H318 Causes serious eye damage H400 Very toxic to aquatic life H412 Harmful to aquatic life with long-lasting effects
